Emails

Our voter records generally do NOT include email addresses, unfortunately. However, if you run across one, or If you happen to know the email of a neighbor, feel free to use this method. You can record email contacts in your voter records on the NLP Services Dashboard.

We've provided a sample email script here, which you can copy and paste into your own email. Make sure to change the highlighted text using the correct personal information for both yourself and your voter. (You can include as much or as little personal contact information as you feel comfortable doing.)

Of course, feel free to modify and personalize this script as you like. Another option is to add a graphic to make your email stand out. You can copy and paste a graphic file into your message (found on our webpage), or use another graphic of your choice.

Sample Email Script

Hi Sally,

As your neighbor and fellow Democrat, I'm asking you to **pledge to vote in the upcoming May 17 Primary Election.**

If more Democrats pay close attention to the primary, and to local races as well as state and national, we'll get stronger candidates. Every election is important!

Can we count on you to cast your ballot? We ask that you get your ballot in as early as possible to be sure it's counted. (This will also reduce the number of calls, texts, and mailings you receive!)

Please reply YES to this email message if you intend to vote, or you can reach me by text or phone. [*be sure to include your contact info*]

For more information on candidates and ballot measures, see your Voter's Pamphlet, or go to www.jcdemocrats.org/candidates-and-issues.

P.S. Triple your impact: Tell three friends to vote as well!

Thanks for reading this!

Optional Graphic

This is for illustration only.
Get the graphic from the Email or Text menu (accessed via NLP webpage).
Open it, copy it, and then paste it into either an email or text window.

Please VOTE by May 17

Vote entire ballot.

Check registration and track ballot online. Search "My Vote Oregon."
